

REDCap Information and Technology Support:

Shang Wei, Programmer, UC Davis Health Research Information Technology

REDCap Database Administration and Design Support:

Carin Lao, Analyst, UC Davis Health

TIME: Noon-2 p.m.

PLACE: <https://ucdavis.zoom.us/j/95513002981>

DATES: October 23, 2020

November 27, 2020 (HOLIDAY- NO OFFICE HOURS)

December 25, 2020 (HOLIDAY- NO OFFICE HOURS)

January 22, 2021

Complimentary assistance with REDCap set-up, functionality, and maintenance

What is REDCap?

REDCap (Research Electronic Data Capture) is a modern, secure software application for building and managing online clinical research databases and survey forms. REDCap is compliant with HIPAA. The application allows users to create research databases and data entry web-based forms that link the data collected with existing statistical software tools. It is a replacement for Microsoft Excel spreadsheets and Access databases for study data, improving data security, online access and the quality of data collected.

Sample questions for REDCap office hours:

- How do I get access to REDCap?
- How do we administer simple recruitment surveys in REDCap?
- How do we create longitudinal studies with automatic follow-up surveys in REDCap?
- How do we administer multi-site studies in REDCap?

Do you have a general REDCap question?
